Skills

Languages: Java, SQL, HTML, CSS, JavaScript.

Technologies & Tools: ReactJS, NodeJS ML, CNN, Android Studio, AWS (S3, EC2).

Database: MongoDB, MySQL, PostgreSQL.

Education

College of Engineering, Anna University, Chennai

Sep 2023 – 2025

Master of Computer Applications (MCA)

CGPA: 7.58/10

Relevant Coursework: Object-Oriented Programming, Databases, Applied Mathematics, Data Structures, Computer Networks, Data Science, Android, Design and Analysis of Algorithms, Internet of Things, Full Stack Software Development, Advanced Software Engineering.

The American College, Madurai

Jun 2020 – Apr 2023

Bachelor of Science in Computer Science

CGPA: 8.03/10

Projects

- **Lung Disease Classification Using ResNet50 with Improved Adaptive Grey Wolf Optimization (IAGWO):** Engineered a deep learning model for multi-class lung disease classification (Normal, Edema, Pleural Effusion) using ResNet50 and DICOM images. Incorporated Improved Adaptive Grey Wolf Optimization (IAGWO) for efficient hyperparameter tuning and performance enhancement.
- **Personal Portfolio Website** – Designed and developed a responsive portfolio website to showcase projects, skills, and achievements. Built with modern web technologies ensuring clean UI and smooth user experience. Deployed and hosted online for easy accessibility.
- **ShoeHUB:** Built an intuitive e-commerce website with an appealing user interface, implemented Stripe for payment processing and an autocomplete feature using the trie data structure. Tools Used: ReactJS, Express, Sneaks API for Shoe data, Stripe payment portal and payment service (Test Mode). Used trie data structure to enable the autocomplete functionality.
- **Automated Mail Generation:** Developed a Python script to automate email generation, streamlining communication for the Department's Association of Computer Applications for automated distribution of emails and certificates. Tools Used: Python, Pandas, email, openpyxl, SSL, smtplib.
- **Lumen Passus (IoT project):** "Lumen Passus" is a smart shoe designed to provide guidance and improve mobility for visually impaired people. Utilizing Arduino Uno, ultrasonic sensors, and a buzzer, this smart shoe detects obstacles and alerts the user through sound, ensuring a safer and more confident journey.

Achievements, Awards and Certificates

- **Technical Symposiums:** Recognized with 2nd Place in the Blind Typing (Programming) competition at "Nictitate'23" a National Level Technical Symposium organized by Kamaraj College of Engineering and Technology.
- **Inter-College Event:** Secured 3rd Place in the Technical Quiz held at The American College, Madurai.
- **Junior Grade Typewriting English:** Achieved a typing speed of 30 words per minute and granted First Class at the Government Technical Examination.
- **Senior Grade Typewriting English:** Achieved a typing speed of 45 words per minute, bestowed Second Class at the Government Technical Examination.
